EDUCATION

Sahyadri College of Engineering and Management

Bachelor of Engineering in Computer Science - CGPA - 8.64

2023 – Present

Mangaluru, India

Mother Teresa PU COLLEGE- Udupi

SCIENCE - PCMB Percentage-92.5

2021 – 2023

Udupi, India

COURSEWORK / SKILLS

- Data Structures & Algorithms
- Operating Systems
- Computer Networks
- Database Management System (DBMS)
- Artificial Intelligence
- OOPS Concept
- Web Development

PROJECTS

Smart Maritime Surveillance and Safety System Using IoT and ML | Python, TensorFlow **2026**

- Developed an IoT-based maritime monitoring system to collect real-time data from onboard sensors for vessel tracking and environmental monitoring.
- Implemented Machine Learning algorithms to detect anomalies, predict potential hazards, and enhance maritime safety.
- Designed a centralized dashboard for real-time surveillance, alert generation, and data visualization to support efficient decision-making and emergency response.

Pothole Detection Using Deep Learning Approach | React, Python, Flask, Node.js **2025**

- Developed a deep learning-based system to automatically detect and classify potholes from road images using computer vision techniques.
- Trained and evaluated Convolutional Neural Network (CNN) models to improve detection accuracy while reducing false positives.
- Implemented a monitoring dashboard to visualize detected potholes and support timely road maintenance and infrastructure management.

Carbon Emissions Monitoring System | HTML, CSS, MySQL, Python **2025**

- Developed a real-time carbon emissions monitoring platform to collect, process, and analyze environmental data from multiple sources.
- Implemented automated emission tracking, reporting, and visualization features to monitor carbon footprints and identify emission trends.
- Designed alert and analytics modules to support regulatory compliance, sustainability initiatives, and data-driven environmental decision-making.

TECHNICAL SKILLS

Languages: Python, Java, C, C++, HTML, CSS, SQL

Frameworks/Technologies: React.js, Node.js, MongoDB, Linux, Git, GitHub

Developer Tools: VS Code, Android Studio, PyCharm, Code Blocks, Jupyter Notebook, Eclipse, Postman (API Testing)

SOCIAL SKILLS

- Critical Thinking
- Problem-Solving
- Communication & Teamwork
- Time Management
- Adaptability
